

ORDER FORM

In light of the economic challenges our industry is facing, FCPC will not conduct in 2009 its annual Management Compensation Survey. With salary freezes affecting most of the survey participants, the 2008 survey results remain relevant within our industry. With this in mind, FCPC is pleased to offer the 2008 Management Compensation Survey conducted by global consulting firm Watson Wyatt Worldwide at a **50% discount**.

The survey provides detailed insight into compensation specifically tailored to the Canadian food and consumer products manufacturing sector. Based on detailed job specifications and published within the limits of confidentiality, this survey gives valuable insights including geographic data as well as company size.

Survey purchasers* will have broad choice in how they access the survey results online with the available features of CompSource™ Premium. For an additional cost of \$500, survey participants who elect to have access to the optional features of CompSource™ Premium will be able to:

- Create and save up to three different peer groups, and to generate survey results against these peer groups at any time. (To ensure confidentiality, Watson Wyatt will review and approve peer group requests).
- Have greater flexibility in customizing search criteria within revenue and number of employee samples, beyond the predefined categories that are currently featured in CompSource™.
- Age survey results using an annual adjustment factor of the users own choosing.
