Mandatory Nutrition Labelling

- Quick Reference Guide -

A guide for food and beverage packaging in Canada

On January 1, 2003, Health Canada published the much-anticipated amendments to the *Food and Drugs Act*, outlining new regulations for Nutrition Labelling, Nutrient Content Claims and Health Claims. Developed in conjunction with the industry's leading package design experts, the *Quick Reference Guide*, available in English or French provides: A decision-tree for Nutrition Facts Table format determination; a list of key elements for Mandatory Nutrition Labelling; Nutrition Facts Table format graphics; calculation of Available Display Surface; a list of optional elements for package copy; exemptions to Mandatory Nutrition Labelling; and government contact points for additional information.
